## AMERICA NEUTRAL.

*Proclamation by the President. United States on Terms of Friendship and Amity With Both of the Contending Powers.*

[BY THE ASSOCIATED PRESS-P.M.]

WASHINGTON, Feb. 11.—The President today issued the following proclamation, declaring the neutrality of the United States in the Russo-Japanese War:

"Whereas, a state of war unhappily exists between Japan on the one side and Russia on the other side, and whereas, the United States is on terms of friendship and amity with both the contending powers, and with the persons inhabiting their several dominions, and whereas, there are citizens of the United States residing within the territories or dominions of each of the said belligerents, and carrying on commerce, trade or other business or pursuits therein, protected by the faith of treaties, and whereas, there are subjects of each of the said belligerents residing within the territory or jurisdiction of the United States and carrying on commerce, trade or other business or pursuits therein; and whereas, the laws of the United States, without interfering with the free expression of opinion and sympathy or with the open manufacture or sale of arms or munitions of war, nevertheless impose upon all persons who may be within their territory and jurisdiction an impartial neutrality during the existence of the conflict; and whereas, it is the duty of a neutral government not to permit or suffer for the making of its waters subservient to the purposes of war;

"Now, therefore, I, Theodore Roosevelt, President of the United States of America, in order to preserve the neutrality of the United States and of their citizens and of persons within their territory and in order that all may be bound to observe the general tenor of the laws and usages of the United States in this behalf and of the laws of nations, may thus be prevented from an unintentional violation of the same, do hereby declare and proclaim that by the act passed on the twenty-third day of April, A.D. 1818, commonly known as the 'neutrality law,' the following acts are forbidden to be done, and severe penalties, within the territory and jurisdiction of the United States, to wit:

"(1) Accepting and exercising a commission to serve either of the said belligerents by land or by sea against the other belligerent.

"(2) Enlisting or entering into the service of either of the said belligerents as a soldier or as a marine, or seaman, on board of any vessel of war, letter of marque or privateer.

"(3) Hiring or retaining another person to go beyond the limits of the United States with intent to be enlisted as a soldier or as a marine, or as a seaman on board of any vessel of war, letter of marque or privateer.

"(4) Hiring another person to go beyond the limits of the United States with intent to be enlisted as a seaman.

"(5) Retaining another person to go beyond the limits of the United States with intent to be enlisted as a seaman.

"(6) Retaining another person to go beyond the limits of the United States with intent to be enlisted as a seaman.

"(7) Retaining another person to go beyond the limits of the United States to be entered into the service of the aforesaid. But the said act is not to be construed to extend to a citizen of either belligerent who, being transiently within the United States, shall, on board of another vessel of war which, at the time of its arrival within the United States, was fitted out and equipped as such vessel of war, enlist or enter himself or hire or retain another subject and citizen of the same belligerent who is transiently within the United States to enlist or enter himself to serve such belligerent on board such vessel of war if the United States shall then be at peace with such belligerent power.

"(8) Fitting out and arming, or attempting to fit out and arm, or procuring to be fitted out and armed, or knowingly being concerned in the furnishing, fitting out or arming of any ship or vessel with intent that said ship or vessel shall be employed in the service of either of the belligerents.

"(9) Lasing or delivering a commission within territory or jurisdiction of the United States for a ship or vessel, to the intent that she may be employed as aforesaid.

"(10) Increasing or augmenting or procuring to increase or augment or knowingly being concerned in increasing or augmenting the force of any ship of war, cruiser or other armed vessel which, at the time of her arrival within the United States, was a ship of war, cruiser of armed vessel in the service of either of the said belligerents, or belonging to the subjects of either of the said belligerents, by adding to the number of guns of greater calibre, by changing those on board of her [or] guns of a larger caliber, or by the addition thereto of any equipment solely applicable to war.

"(11) Beginning, or setting on foot or preparing the meaning for any military expression or enterprise to be carried on from the territory of the United States against the territory or dominions of either of the said belligerents.

"And I do hereby further declare and proclaim that any frequenting and the use of the waters within the territorial jurisdiction of the United States by the armed vessels of either belligerent, whether ships or steamers, for the purpose of preparing for hostile operations or as posts of observation upon the ships of war or privateers or merchant vessels of the other belligerent lying within or being able to enter the jurisdiction of the United States must be regarded as unfriendly and offensive and in violation of that neutrality which it is the duty of his government to observe; and to end that the hazard and inconvenience of such apprehended practices may be avoided, I further proclaim and declare that from and after the 15th day of February, and during

## WAR NEWS AFTER MIDNIGHT.

KORIETZ DARED THEM ALL.

[BY DIRECT WIRE TO THE TIMES.] TOKIO, Feb. 12. [Exclusive Dispatch.] Further details of the naval engagement at Chemulpo Monday, in which Admiral Uri's Japanese fleet destroyed the Russian cruiser Varag and gunboat Kortez, show that these vessels fought separate battles and were crushed by the superior fire of the Japanese. The Russian steamer Suyari was also destroyed and sunk.

Both warships tried to escape from the port before dawn Monday, but eventually put back. At 9:30 o'clock that morning, the Kortez accepted the Japanese challenge, and alone, went out to fight the whole fleet. She was completely outmatched. The Japanese broadsides raked her continually until she sank. Many of her crew were killed by the shells or drowned, and the few who escaped to the shore were captured.

The Varag, on steaming out to sea, was met by a half of shell. Her mast was speedily dismantled. The Russians fought most desperately, and only retreated to the harbor at 2 in the afternoon. About two hundred of the crew of 570 were killed or drowned. The Japanese did not lose a man, and the fleet is known not to be damaged.

RUSSIAN SHIPS FLOATED.

[BY THE ASSOCIATED PRESS-P.M.] CHEFOE, Feb. 11, 9 a.m.—The Japanese fleet has not been seen since noon Tuesday. The injured battleships Czarsavitch and Retwian have been floated, but the cruiser Pallada is still on the beach.

It has been ascertained that the Japanese shells did not injure the forts at Port Arthur in Tuesday's engagement. Shells directed towards the disabled battleships went over them and entered the town. Shells directed at the forts struck its common stock.

Stevens claims that the steel company, since its incorporation, has had net earnings over and above its fixed charges of about \$2,000,000. He claims that, under its charter, the corporation is obliged to pay quarterly dividends to the extent of 10 per cent, per annum; and in October, 1900, a dividend of only one-half of 1 per cent. was declared, and that in January, 1901, no dividend at all was declared on the common stock.

Stevens also attacks the validity of the recent by-laws of the corporation, which authorize the directors to set aside from the earnings of the company from time to time such amounts as they may determine.

CASE OF CAR BARN BANDITS.

CHICAGO, Feb. 11.—Pawnee Kortez of Denver, in Judge Kersten's court, claimed yesterday that he was "Mr. Smith of Denver," from whom he received a revolver in pawn September 3 last—within a week after the bandits Neidermier, Vandine and Marx—had broken into the home of a barn employee, when Cashier Stewart and Motorman Johnson were slain. It was identified as one of a pair of revolvers which had been used during the robbery. Marx also pawned a revolver with Lewis Hyman, another pawnbroker in Denver, at the same time. It was the property of the Kortez City Hardware Co. Kortez and Neidermier was also identified by Hyman as being with Marx at the time.

JAPS DETERMINED.

[BY THE ASSOCIATED PRESS-P.M.] LONDON, Feb. 12.—In a dispatch from Tokio, a correspondent of the Times comments upon the grim determination of the Japanese people, as evidenced by the expeditions and absolutely undemonstrative manner in which the mobilization of troops has everywhere been carried out.

DON'T FEAR BALTIK FLEET.

[BY THE ASSOCIATED PRESS-P.M.] LONDON, Feb. 11.—At Lloyd's today, thirty per cent. was paid to insure against the risk of war between France and Great Britain within six months. Yesterday the rate was twenty per cent. The Nippon Yusen Kaihatsu announced that the Iahs Maia arrived safely at Hongkong to-day.

HARD ON THE FIREMEN.

[BY THE ASSOCIATED PRESS-P.M.] OSWEGO (N. Y.), Feb. 11.—The firemen who served in the fire-fighters in the fire which practically destroyed the large plant of the Corn Products Company in this city, causing an estimated loss of \$1,000,000, John Donohue, a truck driver, fell a distance of five feet, breaking both of his legs, and receiving internal injuries from which he died later. Several other firemen were slightly burned and frost bitten.

GIRLS Cannot Sell Meat.

[BY THE ASSOCIATED PRESS-P.M.] NEW YORK, Feb. 11.—Learning that several girls have been employed by a Harlem butcher to wrap and sell meat, James Meek, the young woman's brother, who testified that he had a complaint to make against the butcher, filed a suit for damages.

HIREMEN WITH PERSONALITY.

[BY THE ASSOCIATED PRESS-P.M.] ROME, Feb. 11.—A cipher cabagram received here contains the information that the Japanese cruiser Nisshin and Kasagi are expected to reach the scene of war on Sunday, and that they will disband their American crews and substitute Japanese.

The official Gazette today publishes the Italian statement of neutrality regarding the Russo-Japanese war.

CABLE LINES BROKEN.

[BY THE ASSOCIATED PRESS-P.M.] ST. PETERSBURG, Feb. 11.—The General staff announces the receipt of a telegram from the Russian military agent in China saying that the cable from Vladivostok to Nagasaki, the telegraph line from Seoul to Masampho and the telegraph line from Seoul to Wonsan are broken.

beached. She must be seriously injured, but she is now also being repaired. She is the only one of the torpedoed vessels now outside.

A shell struck a hospital ship outside the basement during the bombardment. The captain's cabin and the chest room were blown off. There was no loss of life, as the ship was only recently purchased, and was unmanned.

**PURSUIT OF THE MIJAKO.**

The Herald's European edition publishes the following from its correspondent:

**NAGASAKI.** Wednesday, 6:20 p.m. (Eastern time).—According to telegrams which have reached here from Chefoo and elsewhere it appears that the Russian ships at Chemulpo pursued the departing Japanese warship Mijako, but that they in turn were attacked by other Japanese warships and the Russian vessel Korielt was sunk, the Varig being captured.

**RECENT OCCURRENCES.**

(BY DIRECT WIRE TO THE TIMES) NEW YORK, Feb. 11.—[Exclusive Dispatch] The Herald's European edition published the following from its correspondent:

**CHEFOO.** Thursday, 9:25 a.m. (Eastern time).—A well-grounded report reaches here that a Japanese squadron sailed on the 4th, with armed cruiser Asama escorting troops to Korea. They arrived at Chemulpo on the evening of the 8th, and on the morning of the 9th they met off Round Island, the two Russian warships Varig and Korielt, shots were exchanged and the two Russian boats retired to Chemulpo and immediately sank. They probably were scuttled.

Gen. Tchichikoff has taken supreme command of the Russian troops in Manchuria. There is a strong north-easterly wind blowing at Chefoo, rendering all communication by ships impossible. Many Chinese boatmen have just been drowned before my eyes. It was impossible to save them, owing to the violence of the waves. The storm may capsize the stranded battleship at Port Arthur, causing them to block completely the harbor entrance. It will also compel the japs to retire.

The foreigners at Port Arthur were notified, at 7 o'clock Monday night, that they had twenty-four hours in which to clear out, but the British steamers there have been forbidden to leave. One German steamer arrived at Chefoo today, the first to get here from Port Arthur since the Columbia reported here after the battle. The reserves had been called out.

Thousands of persons are leaving Port Arthur daily by train. There is not even standing room in the cars. At 6 o'clock this afternoon, the Russian transport Smolensk and torpedo boat No. 21 entered the canal. Torpedo boat No. 22 has broken down and is repairing here. The Russian trouble has gone down 24 per cent at Chefoo among the Chinese merchants.

**PERFECT INTELLIGENCE.**

(BY DIRECT WIRE TO THE TIMES) NEW YORK, Feb. 12.—[Exclusive Dispatch] The Herald's Chefoo correspondent says:

The Japanese intelligence system here works perfectly. A torpedo boat sometimes approaches the shore, but no lights are shown. Signals are sent from shore by Japanese, and the watching squadron is kept fully informed. It is reported that the Japanese have captured four merchantmen, the Mongolia, the Manchuria, the Sungari and the Edward Barry.

During the Japanese torpedo attack Monday night two Japanese officers, and eighteen men swam ashore from the sunken torpedo boat and are now in prison.

**CHEERED THE NOVIK.**

(BY DIRECT WIRE TO THE TIMES) NEW YORK, Feb. 12.—[Exclusive Dispatch] The Herald this morning publishes the following from its correspondent:

**CHEFOO.** Thursday, 6 p.m. (Eastern time).—The injured Russian cruiser Novik, which was successfully brought into the inner harbor Tuesday afternoon, was hailed with tremendous cheering by Russians, owing to the fact that the Novik, it had been reported, had sunk two Japanese torpedo boats.

**Annual  
Tailoring  
Cleanup**

It will not be long before the piece of winter suitings has been used.

That's what we're after. At the end of each season we take close out the balance of stock.

Perhaps you've made up your mind to buy a Silverwood suit, putting it off from day to day. Perhaps it hasn't come to you that our stock is great and good. The time to choose your suit is today.

During this cleanup, we make up all suits for the cost of materials and labor.

\$30.00 suits \$22.50  
\$35.00 suits \$27.50  
\$40.00 suits \$32.50

**HAD TROUBLE WITH MEN.**

Villa was a laborer employed at a camp near the scene of the murder. A hundred or more railroad laborers live in that vicinity, all being section hands on the railroads and employed under different section bosses. There was a disturbance in the camp Wednesday night, and Villa attended. The last thing of him alive was when he left the dance. It has been learned that he had had trouble with several men, and that he was knocked about the door.

He was asked whether he had any weapons, and said he had none, but when compelled to get out of bed on the floor, a knife and revolver were found under the covers.

**ANOTHER MURDER.**

## The Bankrupt Stock is Now on Sale

With Bargain Friday it Makes a Mighty Combination

The bargains offered with this Bankrupt Stock are particularly strong and cover a broad range of merchandise including every department in our store. The stock is all fresh, clean and seasonable, purchased at far below the cost of production, and now on sale at less than the regular wholesale price. In addition to the extraordinary values made possible by this Bankrupt Sale, we offer our regular weekly accumulation of remnants, short lengths and broken assortments which are particularly large owing to the spirited selling of the early days of the week. Many lines are too short to advertise, these will be found on the bargain tables distributed through the store. The best things sell first—come as early as possible—but you will find bargains abounding on every hand no matter what hour you come.

THE TIMES-MIRROR COMPANY.

**LINCOLN.** Today marks the anniversary of the birth of our illustrious and immortal countryman, Abraham Lincoln, that good, kindly and patient man who was so filled with the homely virtues, so free from selfish ambition, so catholic in his judgments, so strong in his loyalty, so true, so steady and so discreet amid the tremendous exactions of a trying period in the nation's history. At the mention of the name of Lincoln there comes up thoughts of the time of stress in which he wrought grandly for the weal of his country—a time when flames swept cities out of existence, when artillery was rumbling over the bridges, when the youth of the country was battling for the old flag, when sorrow sat at the board in every household and when tears and grief unspeakable was the common lot of this mighty people. And amid all this there sat in the chair of state at Washington one of the sweetest, most kindly and most wise statesmen that were ever called into service in any land, going with unflinching courage and with surpassing patience the duties of quite the weightiest task ever placed upon human shoulders. It is well today that Americans should remember Lincoln and his services—it will be well for America shall her youth strive to be like him in strength of character and in beauty of soul. The American citizen will honor himself when today salutes the memory of his country's first martyred President, Lincoln, the great, the good.

## IMMIGRATION.

The second installment of the series of articles on immigration, by Broughton Brandenburg, who was sent over to Europe to thoroughly investigate the question on the spot, appears in Leslie's Monthly for February. As recently mentioned, the correspondent went to Sicily, where he mixed with the people who constitute the bulk of our immigration from that country. In the second article he describes, among other things, the manner in which the Italian government officials connive at the deportation of the morally and physically unfit, or even promote it. He says:

"Now, all this goes to prove one of the most important facts in connection with Italian immigration; that the question of each district is slowly and effectually clearing the district of its criminal class by dumping the lot into North and South America, the most dangerous coming to the United States, the best fit for their further operations."

"Here is the syllogism:

"Since American police records and prison statistics, especially those of the United States secret service, show large and increasing numbers of Italian criminals in this country;

"And since the mass of these can enter only by immigration;

"And since the emigrant must have a pass from the chief of his local police district;

"And since every criminal's record is kept in the district in which he was born and he must go there to get the birth certificate on which he gets his passport;

"Then these thousands of passports issued annually to criminals are given by chiefs of police who know the records of the men who are receiving them and are thus deliberately ridding their districts of them to save themselves trouble and increase their reputation for efficiency."

The correspondent also throws some light on the manner in which the contract labor law is evaded by American corporations employing low-priced labor:

"In the party were four sturdy peasant boys, destined for the Banco Géant, Philadelphia, and affording a fine example of the present methods of violating the spirit of the contract labor law. Their destination was the Pennsylvania coal mines. They had

oriental muss, other than as a purveyor of meat beef and other provisions. Your Uncle Sam isn't hunting any trouble, but he is out for all the trade in right.

The greatest of the monuments of Baltimore, that city of monuments, will doubtless be the beautiful city to arise above the ashes that now cover the greater portion of her business district. For some years to come Baltimore will probably be one of the busiest of American cities in her nerve, spirit, courage and indomitable spirit.

America appears to have emerged from the shirtsleeve stage of diplomacy that she was wont to occupy and is now doing business in that line in a swashbuckling of the very latest cut. And it greatly grieves Americans to learn that Berlin doesn't approve of the pattern. But we can hardly be expected to please everybody.

The fact that money is being raised for the purpose of building a canal across Panama or Panamá would lead to the conclusion that the debate in Congress with reference to the canal treaty will, like everything else in this world, finally come to a finish. This is highly important if true.

The pickpocket who relieved one of our Oakland visitors of his purse is not an exhibit of which Southern California is justly proud. We hasten to say this in order that there may be no misunderstanding as to what extent our exhibition of industries and advantages is presumed to go.

The meat cutters of New York are up in arms because of the employment of women as wrappers and sellers, and a strike may be anticipated. It is now for the gallants of Gotham to rally to the rescue of the girls who carve.

No doubt Korea would be feeling much safer these days if she had an asbestos curtain reaching all the way around the theater of war as well as a screen stretching across the proscenium arch.

The war has already affected the silk market, but let us be thankful that the cotton market has also had a contrary trend; otherwise we might have to hark back to the fig-leaf stage.

The war is compelling us to try to pronounce names that are more formidable than armor plate and that, in appearance, resemble a collection of consonants on a jamboree.

Japan is getting the bouquets just now, but as only the first act has been reached it remains to be seen who shall get the final curtain call.

As to the war news that appears in The Times, it is the war news that is so.

The war news would be more interesting if it were less one-sided.

That promised rainstorm has sidled around us again. Such luck!

## RIPPLES OF MIRTH.

## Security Required.

"Bring me a scrambled egg." "An egg, sir? Yes sir. But you'll have to leave a deposit at the desk, sir."—[Cleveland Plain-Dealer.]

## Democratic Harmony.

The Parker crowd: A bad Bryan! The Bryan crowd: A bad Parker!

The New-York Journal: Vive Willie Hearst!—Syracuse Post-Standard: Storing Up Energy.

Mrs. Younghub: Baby hasn't cried a bit today.

Mr. Younghub: He's saving up for all night.—[Philadelphia Bulletin.]

## A Trying Position.

Yeast: So he's busy at his restaurant.

Crimsonbeak: Busy's no name for it. Why, he hardly has time to go out to get his meals.—[Yonkers Statesman.]

## A Large Truth.

Little Willie: *Sesame*, what is a luxury?

For a luxury, my son, is anything you happen to want when you haven't got the price.—[Chicago News.]

## Commonplace.

"I want to stop, ma, and see that man who was run over by an automobile."

Crimsonbeak: Busy's no name for it. Why, he hardly has time to go out to get his meals.—[Yonkers Statesman.]

## A Tyrannical Father-in-Law.

"What makes you so big?" inquired the first new wife of the club.

"My father-in-law has come to stay with us," replied the other, "and Henry and he sit at their knitting all day long and cry about my treatment of Henry."—[Philadelphia Inquirer.]

## Reference.

Samuel's enemies seldom kick him when he's down," remarked the morose alizer.

"That's right," rejoined the democrat.

"They stand aside and give him a chance."—[Philadelphia Inquirer.]

## Not for Him.

"A tall bride is the best looking, don't you think?"

"Well," said the titled Englishman, "who I brought along to a little American slang, 'far as I am personally concerned, I certainly am not looking for one who is short.'—[Chicago Evening Post.]

## Looked Well on Some People.

While a young woman was making a husband for herself her father was entertaining her suitor.

"By the way, Mr. Spoonamore," he asked, "how do you stand on this question of colored people?"

"Why," responded young Spoonamore, "I've always thought it was—more becoming to most people than goatee."—[Chicago Tribune.]

## Similar Symptoms.

The Spartan Boy had concealed the fact in his pocket.

"I'm bad," they muttered when they found him, "we know just how you feel; we have done the same thing with Welsh rabbits, and we're sorry."

Then the boy pressed his heroism and sent him ringing down the ages.—[New York Sun.]

## There Was a Hush.

"Help your daughter to put an arrow on her beau and make him assist with the dinner dishes. He probably would rather sit in the dimly lighted parlor and while away the time with 'Joyce, my love' and 'Lillian, my life.'

"There are lots of things that we can find for them to do and we should not share our responsibility."

This was the startling opinion of Mrs. Gross, a leading voice at the meeting of the West End Mothers' council at the Yale School, No. 166 Washington bldg., in an address on "Assigning House Duties to Children." She was but one of several speakers who urged that the daughter of the house should wash the dishes after family meals, but there was a hold-up when she urged a cloth of beans of entertainment for callers.—[Chicago Chronicle.]

Apparently a slight coating of Japan colors things up considerably in Russia's estimation.

The map makers might as well go

way back and sit down until they know who's who.

REGARDING "LICKER."

Dr. Van of St. Louis is a sensible man.

He says a man who invents

and he is right. If the man who invented

the automobile had a product

and we have consumed a neat package in our time. So good has it been, that our consumption has increased.

It's good. It's good. It's good.

FIXING OVER  
THEIR MATCHBritt and "Young Corbett" to  
Meet After All.Sullivan Affair Precedes the  
Gala Occasion.Long Shots Finish First at  
Inglewood—New Orleans.

BY DIRECT WIRE TO THIS HERALD

SAN FRANCISCO, Feb. 11.—(Special to the Dispatch.) It is about as certain as anything can be that "Young Corbett" will fight for the championship next month, and their return will be before the opening of the Hayes Valley Club, originally scheduled for a year ago.

It is not probable that the big show will be put off March 16, as the principal will ask for a later date.

It was that he would "pass up" Corbett to scare the champion out of a match, as he believes that it would hurt him. Jimmy quickly pulled in his horns.

Hayes' desire to fight Corbett is not greater than it was a year ago.

Kirk Gleason, manager of the Hayes Valley Club, says there will be no about rearranging the match.

New Orleans Races

NEW ORLEANS, Feb. 11.—Selling furlooms: Ora McKinney won; Frank Dearing, third; Moderator third.

The spurs, few new ones, were sold.

Referees: Eddie Teller, first; Jimmie Martin, second; Mrs. Frank Foster, third.

The first three were trained in the ring.

## ORIENT.

(CONTINUED FROM FOURTH PAGE)

Information from official sources of the report from Port Arthur that the Japanese attempted to make a landing at the bay of Port Arthur and were immediately repulsed.

The Foreign Office receives a dispatch today, dated yesterday, reporting that 5000 Japanese troops are encamped near Seoul, Korea, some of which have engaged the town. It is

said that quiet prevails there. No mention is made of the presence of the Korean Emperor at the French legation, where he has been reported to have sought refuge.

Regarding the announcements that Korean sailors from the Varig and Koriets had been captured by the French cruiser Pascal, which are confirmed, the Foreign Office says the French commander offered them asylum only in the interests of humanity. Japan has no protest has been made by Japan, but it is said that they sent to Russia. They probably will be required to give their parole not to serve again during the war.

## GRIGSBY CALLS ON THE ROUGH RIDERS.

(BY DIRECT WIRE TO THE TIMES.)

**SIOUX FALLS** (S.D.) Feb. 11.—[Exclusive Dispatch.] Col. Melvin Grigsby of this city, who raised a regiment of Rough Riders for the Spanish War, is communicating with the members of his old and the Wood-Roosevelt regiments with a view to raising a like regiment, and probably two, to fight for Japan. He has gone to Washington and presented a plan to the Japanese Minister there.

The Minister fears international difficulties, but admits, according to Grigsby's telegram to friends here, that Japan needs just such cavalry force, it being weak in this arm of the service.

Grigsby's plan is to notify former Rough Riders and other adventurous spirits that if they would proceed to Japan as individuals they would learn something to their advantage.

## WAR BULLETINS FROM MANY POINTS.

(BY THE ASSOCIATED PRESS—A.M.)

**BERLIN**, Feb. 11.—[By Atlantic Cable.] The Lokal Anzeiger says notification has been received of the proposed passage of the Russian Baltic fleet, consisting of fifteen warships, through the Kaiser Wilhelm Canal, on its way to the Far East.

The German Foreign Office says Germany's aims in the Far East are identical with those of the United States, as expressed in Secretary Hay's note regarding the neutralization of China, localizing the field of war and keeping the Chinese ports open to all traders. DECREE CONCERNING SEIZURES.

(BY THE ASSOCIATED PRESS—A.M.) **BERLIN**, Feb. 11.—A dispatch received here from Tokio says the imperial decree concerning the seizure of Russian merchant vessels excepts those leaving Japan or sailing direct from other than Japanese ports for Japan up to February 16, provided the latter leave Japan after discharging their cargoes and keep to the route mapped out for them, and provided also that neither inward-bound nor outward-bound ships have on board articles contraband of war.

RUSSIAN VESSELS AT SUEZ. (BY THE ASSOCIATED PRESS—A.M.) **SUEZ** (Egypt) Feb. 11.—The Russian volunteer fleet steamer *Czaritsa* and a torpedo boat have arrived here.

TWO OTHERS ENTER CANAL. (BY THE ASSOCIATED PRESS—A.M.) **FORT SAID**, Feb. 11.—The Russian transport *Smolensk* and one torpedo boat have entered the Suez Canal.

GARRISON WITHDRAWN. (BY THE ASSOCIATED PRESS—A.M.)

**TIEN-TSIN**, Feb. 11.—The Russian garrison was withdrawn yesterday to Shan Hai Kwan. The postoffice was transferred to the French authorities.

JAPEANESE ENTREPRENEUR.

Tuan Shih Kwei, Governor of Chih-li province and commander-in-chief of the army, has issued a proclamation forbidding meetings of secret societies or seditionist meetings. The Japanese are flooding Peking with gratis newspapers containing reports of the Japanese successes against Russia.

TURKEY AND BULGARIA.

(BY THE ASSOCIATED PRESS—A.M.) **CONSTANTINOPLE**, Feb. 11.—In diplomatic circles here the fear is increasing that Turkey and Bulgaria will take advantage of Russia's preoccupation in the Far East to settle their differences. Turkish securities have been falling since Friday.

REJOICING AT TOKIO.

(BY THE ASSOCIATED PRESS—A.M.) **LONDON**, Feb. 11.—A dispatch to the St. James Gazette from Tokio, under today's date, says: "There are great rejoicings here at the successes of the Japanese navy. The public buildings, residences and business houses are decorated with flags. Bunting is to be seen everywhere. Tokio

REPORTED SUNK.

(BY THE ASSOCIATED PRESS—A.M.) **LONDON**, Feb. 11.—[By Atlantic Cable.] Lloyd's agent at Shanghai, cabling under date of yesterday, says it is reported and generally believed that a Japanese warship has destroyed the Russian mail steamer *Mongolia*, bound from Shanghai to Dalmat. The cablegram adds that the three Russian warships damaged by torpedoes at Port Arthur sank.

RAILROAD BLOCKED.

(BY THE ASSOCIATED PRESS—A.M.) **LONDON**, Feb. 11.—A special dispatch from Ten-tsin confirms the report that the Manchurian railroad has been blocked by the blowing-up of a bridge on the line and that thirty Russians were killed in the explosion. It is reported, the dispatch adds, that the Russian steamers *Nomile* and *Mukden*, belonging to the Chinese Eastern Railway Company, have been captured by the Japanese.

REPORTED LANDING DENIED.

(BY THE ASSOCIATED PRESS—A.M.) **ST. PETERSBURG**, Feb. 11.—A Ministry of Marine officer declares there is absolutely no foundation for the report that the Japanese made several attempts to land at Port Arthur.

DID NOT USE WEI HAI WEI.

(BY THE ASSOCIATED PRESS—A.M.) **LONDON**, Feb. 11.—It was said at the Foreign Office here, where the following statement was made to the Associated Press tonight: "Russia has not asked permission for the passage of warships through the Dardanelles. If Russia should attempt any such thing without asking permission, it would constitute a grave breach of the treaty on the subject."

## PASSAGE OF DARDANELLES.

If Russia Should Attempt It Britain Would Hold the Treaty Violated.

BY THE ASSOCIATED PRESS—P.M.

**LONDON**, Feb. 11.—The question of the passage of the Dardanelles by the Russian Black Sea fleet has not been raised at the Foreign Office here, where the following statement was made to the Associated Press tonight: "Russia has not asked permission for the passage of warships through the Dardanelles. If Russia should attempt any such thing without asking permission, it would constitute a grave breach of the treaty on the subject."

## THE FAR EAST; RUSSIA AND JAPAN.

(SPECIALLY CONTRIBUTED TO THE TIMES.)

Is it peace or war? This is the question which held the Orient in suspense for months. After centuries of isolation the furthest Orient with its gray methods of doing things and its decrepit civilization is brought face to face with the young spirit that animates the West and the new civilization which in the end rests in the Sermon on the Mount. China so far has manifested only an inability to entertain the new order of things and to become regenerate. Atrophy seems to reign in all the members of that empire. Japan, on the contrary, seems fully capable of regeneration, and even anxious to become independent.

As to Europe, while the peoples of that continent are swayed to some extent by the principles of Christian civilization, the most apparent attitude of them is one which illustrates the truth of the Christian aphorism, "Where the carcass is there shall the eagles be gathered together." China is the carcass and the eagles represent all the great powers of the world.

Will there be war? There probably will be, but when, is the question.

As to Europe, the world is waiting to see how the antagonists exhaust their strength and put themselves back twenty-five years in the work of building a navy and accumulating the "snecks of war." France has not enough interest in the matter to care unless England takes a hand, and then France might have to strike on the side of her ally, England.

England is also a party to the war.

Will there be war? Perhaps the world will be at war.

### Coupe de Magnets.

Theatregoers doubtless remember Annie Abbott, the "original magnet," who made a sensation at the Orpheum recently with her feats of strength and defiance of physical force. She has just been arrested in New York city on a charge of vagrancy. Her male female performer claiming that Miss Abbott stole her title, costume and jewelry.

### For Plant Investigation.

In reply to a telegram sent by the California Commissioner, Washington, requesting that an effort be made to increase the plant investigation appropriation, under the Department of Agriculture, from \$10,000 to \$10,000 this year, a message was received yesterday stating that the request had been granted.

### Riddle Makers.

Cash prizes to the number of 151, values summing up to \$2,500 to \$3,000 were recently offered by D. Gheradelli Company of San Francisco for original riddles. More than 14,000 entries were submitted, being sent from all over the country. The first prize, \$100 was won by Louis R. Freeman of Pasadena. Nine residents of Los Angeles captured smaller prizes.

### Girl in Distress.

The Salvation Army people claim the officers of the law to be mistaken in their opinion that the correspondent in David C. Wilson's living case to be a Salvation Army girl. It seems that she was a girl who had been taken in and helped in distress by the army, which found a place for her. She afterward left from Wilson's clutches to her own and undono.

### Receipt to W.G.T.U. Woman.

In Standard Hall, on the afternoon of February 24, a reception will be held in honor of Mrs. Helen Bullock of Elmira, N. Y., national organizer of the W.G.T.U. Mrs. Bullock will stay from February 20 to 29 and will address numerous meetings in the interest of the work. The program on the 24th will be from 2 to 5 o'clock in the afternoon, and will be open to the auspices of the federated units of the city.

### Reality Club Dinner.

Twenty-two prominent real estate dealers sat down to luncheon at Leila's yesterday noon in the interest of good fellowship, and for the purpose of discussing the condition of the realty market. They were found to be firm, with the indication of a positive trend in Broadway holdings, as many large bids have been refused in that section in the last two weeks. But the local situation did not go far to the all important one of the Far East.

### Large Smoke Loss Reported.

Fire broke out yesterday afternoon in the cellar of the millinery establishment of Goldberg & Abrahams, No. 249 South Broadway. The firemen found a large amount of rubbish in which "sminters" had piled up materials above. The loss from fire was not over \$100. The millinery store was filled with smoke, and Mr. Abrahams stated last night that though he could not accurately estimate the loss, he thought it would be approximately between \$300 and \$600.

### Bail for Crib Women.

Six of the eight crib women who were surrendered to the court by their bondsmen Wednesday were bailed out of jail yesterday afternoon to the amount of \$1000, or cash bail to the amount of \$1000, plus bail to the amount of \$1000. The money was brought to the station by a Frenchwoman, who probably represented some of the crib or saloon inmates. Two women remain in jail until bailed out, also, as soon as their friends can raise the necessary money—\$300 each.

### Not Sunny Since Queen Died.

"We've seen more sunshine here in two weeks than we see in two months in England," said Rev. Dr. Mark Guy Pearce yesterday. "You know we haven't had any real good weather since the Queen died; the sun just comes out for a few minutes, and says, 'She's dead, and there goes good weather again.' Rev. Dr. Pearce will lecture tonight in Simpson Auditorium on 'Christian Socialism.' Sunday morning he will preach in the First Methodist Church, Pasadena, and in the evening in the First Congregational Episcopal Church. Tuesday, as the guest of Rev. William Williams, he will go to Santa Catalina Island for two weeks.

### For Supreme Ranger.

Capt. J. Kelly, Supreme Ranger of the Foresters of America, will give a reception at Elks' Hall last evening by nearly 400 local members of the order. Speeches were made by Capt. Kelly, by Grand Chief Ranger A. E. Wolfe. These gentlemen are making a tour of Southern California in the interests of the order. Chief John H. Foley spoke for this end of the state. On Saturday, Feb. 22, refreshments were served, and dancing followed. Today the party goes to Mount Lowe, and a banquet will be given tonight at the Del Monte Tavern, 200 guests being expected. Tomorrow San Pedro will be visited, and Sunday a trip will be made to San Diego. University Club Dines.

With the close of the fiscal year of the University Club the enthusiasm of the members is rising high, and the new year's banquet will be given for the new year. The banquet which was given at Levy's last night was attended by eighty-two members. Dr. F. D. Bullard, the president, presided, and the

address of the evening was made by ex-Judge Keeney. He discussed the "Longevity of Man" in the most interesting and instructive way, pointing out that the mind needs rest, and exercise in the same way that the body does, and that the rest for the mind may be more thoughtful on subjects diametrically opposite to the body's concerns. The man who thinks only along one line or profession will not live long. On March 10 the University Club will hold its annual meeting at Levy's, when new officers will be elected and plans for the year decided upon.

PIANOS.

Steinway pianos occupy the same lofty plane of superiority in St. Petersburg, Vienna and Paris that they do in the art centers of America.

Among the foreign potentates (and their respective courts) who have selected and used the Steinway piano in preference to all others, are the King and Queen of England, the Czar of Russia, the Emperor of Germany and the Mikado of Japan—toga-tether with a dozen lesser representatives of royalty.

Our piano department pays no rent and we are able to save our patrons from \$100 to \$200 on a single instrument, but in addition to this great saving we also offer the most liberal credit terms in the city—\$10.00 down and \$1.00 per week.

It isn't surprising that we have captured the piano business of the city. Nearly every one who has been renting pianos is returning them and buying one of our beautiful Wagner pianos on payments of \$1.00 per week—they formerly paid more than that for the mere privilege of renting.

## RUSSIAN TO FIGHT IN MIKADO'S NAVY.

RUSSIA'S foes are not all from without; some of the most dangerous to rise up against her in her hour of need are sons of the Despotism who have been insulted and injured in times of peace.

One such is today in Los Angeles,

not far from the sun-kissed home of music, beloved "Italia." Last year his father was harp soloist with the Elgar band, and will doubtless be remembered by many Angelenos for his artistic playing in this city.

The history of his family is sad; its records of sorrow. Twice the home of his fathers has been uprooted by the ruthless hand of the wanton Russian destroyers—twice have his people been driven from their hearth to seek shelter—they knew not where.

Andre Sataro was born in Almaty, but emigrated to Southern Russia at an early age. His family was musical, and in this way all its members found happy and congenial employment. Far from remaining permanently at peace, they found themselves persecuted and hounded by the Russians—especially by bands of idle soldiers—till life became more than a burden, turning finally to veritable torture. Eight years since, they left Russia for the last time, coming direct to the United States.

They have neither forgotten nor forgiven. Andre Sataro's father is getting feeble and old now—and much of his infirmity is caused by the torments of years spent in Russia. The son long ago avowed vengeance, and he holds this opportunity with delight.

He will enter the service of the Japanese navy at once, as he has already secured the promise of a place through the efforts of his architect.

Andre Sataro, tomorrow, will take a steamer for the Orient immediately. In the navy his experience will quickly serve to place him in an advantageous position, he says, where he can do damage to the enemy.

Sataro received his engineering education in Philadelphia, and at the outbreak of the Cuban war entered the naval service. He served on various boats with distinction during the entire conflict, subjected him to grave personal dangers on several occasions, and was discharged at the end of the war with honors. The attention of Theodore Roosevelt was called to his especially meritorious services, and Sataro now carries as one of his most precious mementos a letter from the President of the United States, congratulating him on his good record.

The soldier-musician, finding no further use for his fighting talents at that time, took up again his modicous task of peace, and has been following music as a profession since.

but a week hence he will be speeding across the Pacific to Japan. He is Andre Sataro, a member of the Royal Guards Band, and on time an engineer in the United States Navy.

Sataro is a Russian Jew—the only member of Ellery's forces who does

Atterly) between the lawyers of E. D. Black and the residents about the University.

In a long and comprehensive opinion, Mr. James declared that contriving to cruel in the meaning of the statute, to the baiting of animals. The opinion was sustained in the higher courts.

When the coursing park was removed where it would no longer injure the value of their property, the anti-coursing people seemed to lose their horror of the sport and their intense and bleeding sympathy for the rabbits. The same old sport, under different management, went on in the same old way, discreetly removed into the barley patches toward Redondo.

As a matter of fact, the "sport" that takes place there is but a limp and faded shadow.

A number of men yearning to be real desperadoes get out and waggle all the way from \$3 to \$3 cents on a lot of second-class pups. If they chased other second-class pups or the third-class sports themselves there would be no possible objection raised.

The trouble is it is rough on the first-class rabbits.

It would be a better way of putting it to say "was" rough on the rabbits.

The coursing game is killed doader than the starved rabbits here.

MRS. LONDON  
IN RETREAT.

WIFE OF TALENTED AUTHOR DOMICILED BY SEA.

Busy With Domestic Duties She Gives Her Time to Her Children and Believes That Her Husband Is in No Danger in Japan.

Mrs. Jack London, with her two children, is a guest of Mrs. Ida Merchant Strowbridge at that quaint, curious, old-fashioned retreat called the Wick-Lup Inn, located about one mile down the seawall at San Pedro, on Deadman's Island Breakwater.

There away from the gossip of tongues and with the swish and wash of the waves under her abode and the view of the boundless sea before her, this devoted mother is watching the court to come to the chester of her little 10-year-old son, who ill in Oakland caused so much discussion of the somewhat strained relations existing between Mrs. London and her genius of a husband. The world is often prone to laud the wrong person and those who have such an unbound admiration for the fascinating author of "The Call of the Wild" have probably not noticed that blame of any sort could attach to so much genius, but they could probably read a history of patient effort and heroic struggle in the prematurely old, yet sweet, womanly countenance of his wife.

When a reporter called to see her yesterday she said she had been in the country for months, engaged in domestic tasks, for Mrs. London has performed most arduous work since her marriage to Mr. London, in addition to the quiet, peaceful, professional career which she continued during the first year of her married life. Mrs. London is as brilliant in her way as Jack London is in his, and she comes of a tall, slender, dark-haired, Missie Middle Fingers is her first cousin and was brought up by Mrs. London's mother.

Though her friends acknowledge that she is an invalid, suffering from heart disease, resulting in frequent and legitimate fainting spells, Mrs. London is as brilliant in her way as Jack London is in his, and she comes of a tall, slender, dark-haired, Missie Middle Fingers is her first cousin and was brought up by Mrs. London's mother.

Mrs. Fackner was caught by one of the attorneys just as she keeled over in the chair, evidently lifeless. She was immediately adjourned until the morning, and it was some time before the unfortunate woman was brought to consciousness again.

# PUBLIC SERVICE—OFFICIAL DOINGS.

## SUMMARY OF THE DAY.

At a special conference yesterday between the Council and the bank syndicate that bought the sewer bonds a plan for the consummation of the sale of the securities was agreed upon.

The Park Commission adopted a resolution against the erection of any public building in a park.

After two strenuous weeks since her divorce suit was turned down, Mrs. Anna C. Ingram had begun again with new grounds upon which to base her application.

Mrs. Margaret West was held to answer in the Superior Court yesterday, and the charges against her in manipulating chattel mortgages are multiplying as investigation reveals her methods.

E. P. Bingham experienced a change of heart yesterday and determined to accept the decision of the court that he is insane.

In Justice Chambers's court Robert Maiwald was convicted of battering Robert Rieser with a pitcher of beer.

The petty larceny charge against A. Kanofsky and Ben Schwarz was dismissed by Justice Austin.

Treasurer to File New Bond With City Banks Allego Fidelity and Deposit Company of Maryland Has Hampered and Harassed Them.

An agreement was reached yesterday whereby the purchase of the \$1,000,000 issue of sewer bonds by a syndicate of ten local banks can be consummated within a day or two.

Late in the afternoon a conference was held between the Councilmen, the City Treasurer, the City Attorney and a committee of five from the banks, at which the whole question was openly discussed.

The bankers' committee, composed of J. F. Sartori, J. E. Flaherty, J. C. Drake, J. A. Graves and H. J. Woolcott, charged the Fidelity and Deposit Company of Maryland, which is on the \$10,000 official bond of City Treasurer Workman, with delaying the transfer of the money for the bonds by unfair tactics.

It transpired finally that the bond company objected to the assumption of all liability by the City Treasurer. The company held that if \$1,000,000 was added to the money in the treasury the liabilities of the Treasurer were increased so much that it would not justify them in remaining on his bond at the regular premium.

The several banks proposed to furnish the City Treasurer with supply bonds, but the Fidelity and Deposit would not do this, but the Fidelity and Deposit Company would only accept the bonds of the American Surety Company, which added two to the regular premium. The bankers thought \$600 more than they could afford to pay for securities which they were not particularly desirous of having and refused to deal with the American Surety Company.

Then followed a deadlock which was not broken until yesterday afternoon, when City Treasurer Workman agreed to withdraw the \$10,000 official bond and substitute either the bond of another company, or a personal bond for \$150,000. As soon as the new bond is approved by the Council the transfer of the \$1,000,000 for the sewer bonds can be made.

It is thought that the final transfer can be made on or before next Monday.

The ten banks that purchased the sewer bonds are: Farmers' and Merchants' National Bank, National Bank of California, Los Angeles Trust Company, Security Trust Company, Merchants' National Bank, Broadway Bank and Trust Company, Union Bank of Savings, American National Bank and the Central Bank.

Some of these banks will pay their pro rata of money into the treasury and take the bonds, some will give certificates of deposit in the Ninth-street cars to the bonds in the city vaults as collateral, while others will give certificates of deposit and approved surety or personal bonds, and take their proportion of the sewer issue.

## LIBRARY SITE.

**PARK COMMISSION RESOLVES.** Unexpected opposition to the plan to erect the public library building in Central park, in the event the proposed bond issue is voted, developed yesterday. The Park Commission adopted a resolution declaring their opposition to the erection of any public building, except for park purposes, in any public park.

Commissioner Rice introduced the resolution. He said that if one building was allowed to be erected in a park other than one of similar nature would follow. No direct reference was made to the proposed library building, but the intent of the resolution was evident.

The stand taken by the Park Commission yesterday is known to be at variance with the views of Mayor Snyder, who is at present in Mexico.

An opinion has been given by the City Attorney, Mathews, saying that a library building can be put in the park as far as legal questions are concerned, in search of the title of the time after the park is built.

The park is a remnant of the original pueblo lands, and has always belonged to the city. There is said to be no foundation for the story that "Roundabout" was the name given to the land which is now the park.

Mr. C. F. Skilling, treasurer, and the plaintiff's secretary.

to show that the Los Angeles library in everything but a building is well up to the standard maintained by the foremost libraries of the largest cities in the country.

Members of the library board spent some time yesterday in marshaling their forces for a descent on the Council next Monday, at which time the question of a bond issue will be presented.

**Make Bold Bluff.**

Krause again donned his uniform yesterday, and when Krause was dressed with the same spirit from the Far East. Yesterday he received a communication written in this city upon the letter head of the Home Cooperative Association, Kansas City, Mo., and signed by S. D. Sturgis, D. C. Wilson, J. C. Dunaway and J. N. Willey, stating that if he attempted to tear down or destroy the building, or the walls in defense of the city, he would be held responsible for \$120,000, being \$10 less than the amount claimed.

**Mrs. West Held.**

DARLING BUSINESS METHODS.

Mrs. Margaret West, the chatelaine-marshal queen, was held to answer by Justice Foster yesterday, for having obtained \$75 from Elmer E. Foster advanced on the note all right and said she would pay it. Justice Foster gave judgment in favor of Jones Co. for \$120, being \$10 less than the amount claimed.

**Rieser Tells the Court How It Happened.**

Despite these explanations there was no overruling of the testimony of the three witnesses for the plaintiff who swore that Mrs. Nourser signed her name to the note all right and said she would pay it. Justice Foster gave judgment in favor of Jones Co. for \$120, being \$10 less than the amount claimed.

**Change Alters Only the Criminal Case as Yet—Real Reason for Buden Swap Few Days Before Trial Not Known at Present.**

Col. G. J. Griffith has swapped lawyers, dual arrangements having been made yesterday at a meeting in Earl Rogers's office. It was stated in yesterday's Times that Griffith would probably retain Rogers.

Upon Mr. Rogers being retained, Griffith's other attorneys, John J. John, D. Works and Hon. Charles Silent announced their retirement from the case.

"All that we can do," said Mr. Silent last night, "is that we shall retire from the case. You can say that such an arrangement is agreeable to all, including Col. Griffith."

Asked that what would also include the civil case and the divorce, Mr. Silent said that he and Mr. Works had only retired from the criminal case.

Mr. Silent has been Col. Griffith's regular attorney for a number of years.

Whatever the real reason is for the change of lawyers, it is not likely to be known at present.

Hon. W. H. Harris is being negotiated for by Col. Griffith to act as counsel in the case.

The change of lawyers at this late date, on three or four days before the date set for trial, will undoubtedly be the cause of another continuance, which the District Attorney is sure to fight tooth and nail.

**Cruelty to Animals.**

LOS ANGELES, Feb. 4.—To the Editor of The Times: And what are we doing and praying for rain for? Because we are so deeply sympathetic with the farmer who seems to be the greater loser if there are no plentiful rains? Or because our hearts ache to think of the suffering cattle? Are dry seasons the cause of the rains? We are all thinking of the almighty dollar. If we ever think of the farmer we are perhaps sorry for him, and we can't worry about the suffering cattle and herds. We are probably more anxious about the sheep, when for our amusement we see them roll in mud and then stand there until they are killed, when every day we see horses cruelly treated and when fond mothers buy puppies and cats for playthings for their little ones; when cadavers are kept so close at hand. The undertakers are the chief offenders. Otto Sweet of the big Hamberger store, who occupies a handsome residence across by Mr. Sweet does not like the idea of having an undertaking shop next door to his home. He has therefore made complaint against the undertaker for misdemeanor. There is no ordinance which makes it unlawful to keep a dead body in a business within 100 feet of a dwelling if the property holders object. Mr. Sweet was arrested yesterday on the charge of violating this ordinance. He was given the 11th inst. to plead.

**Jailed for Adultery.**

Max Urban and Mrs. Mary Brannan are languishing in the City Jail awaiting trial for the offense of adultery. Their home is in a small shack on Western avenue, and it is alleged that Mrs. Brannan, who has a husband and children, was cohabiting with him there. Urban, a single man, had employed the woman as his housekeeper, but neighbors considered their relationship adulterous and called the attention of the police to the affair. The complaint against them was sworn to by William Gosan of No. 1515 Western avenue.

## EVENTS IN LOCAL SOCIETY.

EARLY these débutantes are more enterprising than the older girls, and already they have taken advantage of the Year season and planned a dance to be given at Kramer's Hall after Easter, about April 23. They have not made any very definite plans except, that it is to be a domino party, the girls will wear dominoes to identify them, but the girls will be obliged to attend unmasked. The promise to be one of the gayest, débuts always have a superabundance of energy and enthusiasm.

social treat.

One of the most delightful events of the season was given by the Woman's Club House on Friday evening by the members of the Pine Music Club, an excellent program was offered and the room was filled with the fragrance of flowers.

Another room was in yellow, tulips being used and greenery made cool finish to the attractive arrangement. The dining room was in pink, carnations and feathers being the chief decorations.

**Bullies Try to Turn Away Stream of Customers.**

**Citizens' Alliance Takes a Hand in the Game.**

**Because two women, Mrs. Clarke and her daughter, Mrs. Bladis, proprietors of the Rival restaurant, have decided to run their own business as they see fit, instead of submitting to the dictation of the labor-union jaysmen, a boycott has been declared against them by the Council of Labor.**

**The boycott was supposed to have gone into effect yesterday afternoon, and it is now a deadly sin for a union man to taste Rival "grub." It is also a serious matter for the pocketbooks of the union men who have temerity enough to eat where they please. Men were stationed in the windows of the Cooks' and Waiters' Union headquarters all day yesterday, with cameras, taking pictures of the men seen going into the Rival Restaurant.**

**WILL BE FINED BY PHOTOS.**

**When the plates are developed, if a union man is discovered in the print, he will be fined so many dollars per feed.**

**Just before the noonday rush at this restaurant, a gang of about fifteen men from the Cooks' and Waiters' Union arranged themselves along the sidewalk on Second street, and tried to turn away the stream of customers.**

**The efforts were not remarkably successful. The story of the "Citizens' Alliance" was nothing of the demonstration on the streets, but it is asked that the police prevent interference with the rights of the two women.**

**The pickets dispersed little later in the day, but the picture-making, or at least a bluff at it, was continued all afternoon.**

**HAVE CUT LOOSE ENTIRELY.**

**Mrs. Clarke and her daughter, Mrs. Bladis, say they have decided to cut loose from the unions entirely. The trouble began about ten days ago, when they were ordered to remove two of their cooks to join the union. They did not feel like doing this, and as a punishment for their refusal, the waiters were ordered out. On the fourth day they emigrated to New York. The others have remained locally at their work. Not one man of the nine employed in the kitchen has left the Rival, and the proprietors believe that they can depend on their stand by them in this sensible boycott.**

**These ladies are members of the Citizens' Alliance, and their interests will be the interests of that whole body in this case between the union laborers and the business who wish to conduct their own business according to their own ideas.**

**GEORGE'S HOOF.**

**Les Pauline Black, aged 12—daughter of resident of the Shady Normal School, while riding her pony on Upper Fifth street yesterday was knocked down by a wagon. The horse stepped on her face, and the girl narrowly escaped death. The most severe wound is in the forehead, and there are several cuts on the face. It is charged that the accident was caused by the careless driving of a woman, who did not take the trouble to see if she could be of assistance. His conduct was that of a**

**drunken man. A warrant is out for his arrest.**

**NOT PROSECUTED.**

**In Department One of the Superior Court this morning Lester Coburn, the young man charged with an assault with a knife, was found not guilty. His request that the matter was continued to September 12. His wife and baby and step-mother were in court. It is understood that he will go to the loss to Los Angeles, who purchased the rig with which Coburn came down from Redlands, the prosecution may be stopped.**

**BRAWLEY CHAMBER OF COMMERCE.**

**Articles of incorporation of the Brawley Chamber of Commerce were filed with the County Clerk today. The objects are the same as those of other chambers of commerce: W. A. Mansfield, John Colby, S. A. F. Slawie, Peter Hovley, G. W. Frasier and Harry Stewart. The life of the organization is set down as fifty years.**

**THE NEWS IN BRIEF.**

**Dr. J. W. Headrick of Brawley was brought here today charged with insanity, on complaint of J. R. Marlow. Headrick has been wandering about Brawley, gnawing his teeth, muttering and biting his fingers. The driver of a wagonload of giant powder and caps, valued at something over \$1000, bailed to the Alasita mine. Valdes had stopped at a ranch house. Emerging, he saw the wagon on fire, and before he could reach the road was killed by an explosion. The wagon and horses were torn into bits and distributed for shooting of a quarter of a mile. The driver is inclined to believe that he dropped a cigarette into the wagon.**

**Humphrey Navarro died Sunday at Tucson from the effects of a bullet wound in the groin. He was conscious shortly before death and said he knew who shot him but refused to give the name. The shooting occurred after midnight in front of the Tucson Statehouse, almost upon the international line.**

**It is believed the shot was fired by Navarro's wife, jealous and revengeful, though there is a possibility the assassin was an American named Thompson, with whom Navarro had quarreled.**

**TARDYMASTER KILLED.**

**At Clifton last Monday Tardymaster O. B. Mastick was killed in the yards of the Arizona and New Mexico railroad, by being struck by the iron actuating bar of a switch engine.**

**S. M. Barrow, one of the pioneer merchants of Tombstone, died at his home in that city a few days ago from the effects of eating poisonous canned corn.**

**The Santa Fe low-gradient line from Phoenix eastward has been surveyed to a junction with the main line connecting above Deming. It is understood that engineering difficulties have been struck in the valley of the Gila, above Dudleyville. Two surveys have been run from that point into the upper Gila Valley above San Carlos, and an alternative route has been surveyed that will parallel the Southern Pacific through Stein's Pass and having its eastern terminus at Deming, beyond Dudleyville. This alternative line would connect Avondale, Calif. There seems little doubt, however, that the original route up the Gila will be followed, as it has the advantages of shortness, of perspective, excellent farming country and of nearness to the great copper districts of Globe, Morenci and Clifton.**

**SLAC FOR ROAD BALLAST.**

**The Arizona and New Mexico Railroad Company, an annex of the Arizona Copper Company, is utilizing the old tailings from the great cotton smelter at the ballastizing of its roadbed. All the crevices between Clifton and Gadsden are to be filled in with this material. At present the road is a very dusty one, due to the removal of the furnaces through perforated plates into running water and is bullet-like in shape and size, capable of making the road impassable.**

**A 1000-foot tunnel has been completed by the Southwestern road and trains are now running via the Forest-Naco line, and a material saving of 40% and time.**

**Fifty cottages will be built at Douglass by the Copper Queen Company for the use of employees of its new smelter plant. The company is also changing the town hall into a library and reading room for the benefit of its employees.**

## KIMBELL MAKING HARD FIGHT.

### COURT AGAIN RULES AGAINST RIVERSIDE SUPERVISOR.

**Demurmer to Sufficiency of Accusation is Entered, Argued and Taken Under Advisement by Judge Bledsoe—Causes of Decay in Oranges.**

**RIVERSIDE.** Feb. 11.—This morning in the Superior Court, was taken up by appeal on the part of Supervisor Kimball's attorneys to quash the indictment of the present grand jury. Many were examined. Attorney Gill claimed that the jurors were biased and therefore incompetent to serve. Judge Bledsoe ruled that they were capable of passing upon the matter by law.

Then Attorney Gill made a motion to set aside the findings of the grand jury against Kimball, on the ground that Kimball's trial was brought before the commencement of the present grand jury. Many were examined. Attorney Gill claimed that the jurors were biased and therefore incompetent to serve. Judge Bledsoe ruled that they were capable of passing upon the matter by law.

When court convened this afternoon Judge Bledsoe again ruled against Supervisor Kimball, denying the demurrer to the indictment. The case was brought by the grand jury because two jurors were alleged to be not qualified to serve. Then Attorneys Gill and Densmore took another turn, entering a demurmer to the sufficiency of the accusations claiming that the matters of record, not direct allegations, and that all offenses charged, down to those of the eight specifications, were in a previous term of office and committed over one year prior to the date of the indictment and that therefore they were barred by the statute of limitations.

Attorney Gill for Kimball and Dist. Atty. Evans and Deputy District Attorney North argued the demurrer at some length. On the conclusion of the arguments Judge Bledsoe took the matter under advisement, announcing that he would render his decision next Tuesday morning at 9 o'clock.

In the meantime the grand jury will go with the word of Kimball concerning his business at 9 o'clock tomorrow morning, and reports are that "T. C." Hays will have a chance to explain some strange things. The testimony of the Salt Lake Railroad officials was given yesterday morning, and it is said to be very damaging.

**CAUSES OF ORANGE DECAY.**

On Harold Powell of Washington, D. C., came a telegram to a large meeting of orange growers to lay the causes of decay of oranges in storage and in transit. Mr. Powell comes here by direction of the Department of Agriculture to consider this important problem. He is an expert along this line, and here to obtain information regarding commercial condition and character of the various soils, and to investigate methods of picking, packing and handling the fruit. He recited the experience of apple growers in New York, and said that in a few years ago when similar conditions to those existing here prevailed, and told how they were overcome. He thought their experience very similar to that of the orange grower here.

He spoke of the influence different kinds of soil had upon the keeping qualities of the oranges. Light, porous soils produce more quickly and give better color, but the fruit does not keep as well as that grown in the cooler and heavier soils. The degree of maturity of fruit when picked, he said, is an important factor in fruit decaying first. The influence of commercial methods of handling fruit were emphasized. If the grower could but realize that he was handling something alive, a living organism, having the stages of growth, maturity and decay, he would certainly be more careful. "The rapidity with which diseases develop" was mentioned. High temperature and humidity cutting up a fruit. Malaria is produced by bruisers, and that spreads the fungous diseases. Anything which tends to jar the fruit is injurious. In this connection Mr. Powell complimented the local growers and dealers upon the care and skill they put into handling fruit. He said there was no generation ahead of the east in this respect.

He emphasized the fact that the careless handling in orchards and packing houses was responsible for a large part of the loss. Most diseases he concluded were due to the poor sanitary conditions under which fruit is kept. It is moist. There is a desire to vision made to allow the air to circulate between the boxes and through the oranges. At this point he took occasion to speak of hideous terms of the advance along the line, which had been made by the inauguration of the tent system in caring for lemons.

Mr. Powell assured his hearers that Secretary Wilson and the Department of Agriculture would render all possible assistance in this important movement.

## NOT ANXIOUS TO SERVE.

The trial of Mrs. Jennie Downey, charged with shooting Charles A. Wilson, is to be held at 10 o'clock this morning. All of yesterday was taken up in getting a jury, and when court adjourned only eleven had been sworn. Mrs. Downey started in on her usual trick of obstructing the trial, and when she had been appointed to defend her. She raised an objection to Attorney Putnam, the fifth who has taken her case, but was given to understand by Judge Putnam that if the did like Putnam she could conduct her own case. This silenced her.

Yesterday afternoon a reception was given to Mrs. William Taft by Mrs. Charles Anderson of this city. Mrs. Anderson is the wife of Dr. Anderson and knew Mrs. Taft in the Philippines. The reception, held at the Arlington Hotel, was a brilliant affair and largely attended.

John Sloane, millionaire New Yorker, is here accompanied by Mrs. Sloane, and will remain several months.

At the trial of Mrs. Jennie Downey, charged with shooting Charles A. Wilson, is to be held at 10 o'clock this morning. All of yesterday was taken up in getting a jury, and when court adjourned only eleven had been sworn. Mrs. Downey started in on her usual trick of obstructing the trial, and when she had been appointed to defend her. She raised an objection to Attorney Putnam, the fifth who has taken her case, but was given to understand by Judge Putnam that if the did like Putnam she could conduct her own case. This silenced her.

## RUSSIA VS. JAPAN.

**COMPARATIVE ASERITS OF PARTIES TO PRESENT CONFLICT.**

LOS ANGELES, February 11.—[To the Editor of The Times:]—The virulent campaign against Russia now being waged by the English press seems for some reason to have received the sanction of many people in the United States. In the interest of historic truth and justice to a great and valiant nation, however, it is my opinion that prejudices, should be considered at this juncture, and we certainly owe it to Russia to remember her position in the past, when we needed her aid and protective sympathy, and when she was friendless. John W. Rockwater of Ohio, a man well known as an impartial investigator, says in his recently published book, "Siberia and Central Asia," "Russia's position is much more important than that of any other power, and, to extend her territory, as she already owns one-seventh of the land area of the world, and displayed a disposition to be relieved of detached territories, such as the state of Alaska to the United States. The thing she wants, and which is absolutely necessary to her, is an open port, for with all her vast territory she is bottled up."

Here is an extract from the book made by the New York Tribune on the 26th of January, 1901:

"Whether she seeks an outlet through the Black Sea, or through the Persian Gulf or through Manchuria and Korea, she is laid open to the charge of seeking to acquire further territory. This is not, however, the fundamental purpose, but is incidental, and of secondary importance. The real point is the fact that she has no commerce, which is, of course, impossible without access to the sea."

"She has been shut in by the coalition of England and Japan, of whom England is the head, and it looks as if the movement in the Far East, undoubtedly inspired by England, aims to perpetuate the same purpose. Russia is said to be less progressive than most of the neighboring powers, but in this connection it should be remembered that for three hundred years she was the bulwark that protected all of Continental Europe against the invasions of the Tartar hordes, and in doing this she was necessarily weakened and her progress greatly retarded."

The powers of Europe should recognize the fact that in rendering this service Russia put them under great and lasting obligation. But for the fact that she stood against the power of the Tartar flood, Europe might have met even a more disastrous fate than overwhelmed her in the early centuries, when the Tartars overran the lands under the resistless leadership of Attila, called "The Scourge of God."

"Every step in Russian policy looking to the acquisition of an outlet emphasizes the fact that her commerce has been accepted by England as a menace either to India or English ambitions in China. The western world looks with covetous eyes upon the millions of possible consumers in China. It is people like us that must profit for profit. The community of interest between England and the United States is commercialism."

"Russian territorial borders on China for the last thousand miles and the continual sympathy considered in connection with their close proximity, forbids that they should be natural enemies. The same ethical relation includes Japan, and, if other influences were not so strong, the rapid and speedy settlement of the questions now at issue between Russia and Japan. But it may well be imagined in the light of all the circumstances that England is again at the head of the pack. Her reputed desire to promote peace would seem to be wanting in sincerity. And in view of the attitude assumed by England, her ancient enemy, Russia would seem to be the exact target that is inevitable and may come soon."

Albert J. Beveridge, Senator from Indiana, in his book, "The Russian Advance," mentions the vast benefit to Manchuria and the west of the Russian occupation of that territory, and it is well to recall some parallel cases to that occupation and how they have been justified by history. England herself, in Egypt, is an example of broken promises, broken treaties, and, on one time, still so recent that it is well remembered. France, whose interests in Egypt were far vaaster than those of Japan in Korea, showed a strong inclination to resort to arms to oust England. Had she succeeded the result that Japan has been granted, a bloody war would have been the result. As it is, England has remained in undisturbed possession of Egypt for twenty-two years, and she is not likely to recede. The Egyptian Sudan is controlled by England, and the Khedive does not official act without the English sanction, though he is subject to Turkey. Egypt today is more or less a pawn in the interests of commerce and civilization.

When the Manchurian Railway was built it was under an agreement with the Chinese government for its dual control by Russia and China and their mutual guarantee of the safety of the road. At the time of the Boxer uprising Russia had but fifteen thousand guards along that road. Russia charged that the Chinese imperial troops assisted the Boxers in turning up whole sections of the railway, and that the Chinese government failed to keep its solemn covenant that traffic should at all times be protected. After the uprising Russia rebuilt, at her own expense, the destroyed portions, and when China, backed by England, insisted upon being reinstated in the dual control, and evacuation by the large body of troops kept by Russia at important points, Russia required satisfaction, though the Chinese was prepared to safeguard her interests. These guarantees were not forthcoming, and she refused to abandon her road to the Chinese guardianship, pending the furnishing of the guarantee. Should we be in the same position, the last word of Panzer, we know, what would be the course of our government. Japan's course throughout the negotiations, which were begun at her instigation, and which probably did not originate with the Manchurian question, with which she clearly has no more right to interfere than would Venezuela with the canal question in Panama, has been irritating and insulting. Has she not been aware of the situation in Korea? We know what would be the course of our government. Japan's course throughout the negotiations, which were begun at her instigation, and which probably did not originate with the Manchurian question, with which she clearly has no more right to interfere than would Venezuela with the canal question in Panama, has been irritating and insulting. dependence as that unhappy people is likely to enjoy under Japanese rule may be predicated when we remember that the same is true of the Korean and the Japanese, and the way in which they have received the well-meaning efforts of that country for their improvement. That this question could easily be settled by the Hague tribunal will be added to the argument. The Hague tribunal was the suggestion of the Japanese Minister to Russia, but his government, urged forward by the native and English press, dared not defy the thirst of the Japanese for Korea. That conflict is now on. Will it end will no one can predict, but its termination will probably decide whether the form of civilization of Asia shall be occidental or oriental. Christian or Pagan, and that is no light matter.

Having studied dispassionately the course of Russian progress, we must admit that Russia today stands the lowest in the political scale of all the white nations; but the lowest white race has still the largest potentialities for greatness, of which the highest of the yellow, brown or black races is devoid. Russia is a young, ignorant, untaught child of the Caucasian, but nevertheless she is a great people, quick-witted, warlike and none too scrupulous where their own interests are concerned. That they need Korea for their business seems to them and to their neighbors that the present course and the wishes of the Korean people, their prejudices and their interests are hardly considered. Both Russia and Japan claim that they are passionately imbued with the idea of "Korean independence," but such in-

with the countries that are in the twentieth century stage, nevertheless we cannot fail to see the elements of progress everywhere in her vast struggling population.

Russia has the lowest form of Christian faith, but here we claim that the same is true of the Korean and the Japanese, and the way in which they have received the well-meaning efforts of that country for their improvement.
